

**Signers of Rep. Lisa McClain's Letter Opposing EPA's
67% Electric Vehicle Mandate**

November 17, 2023

The EPA has proposed a rule that will effectively require that over two-thirds of all vehicles sold in the U.S. be fully electric in less than nine years. This misguided mandate would have an immediate and detrimental impact on the choices and affordability of vehicles. The letter to Speaker Johnson and Minority Leader McConnell urges them to fight to preserve language that was included in HAC's Interior-Environment Appropriations bill to prevent the EPA from using any funding to finalize or implement this mandate.
